AI, Deepfakes and Real Estate Fraud

Wednesday, April 16th | 11AM PST / 2PM EST

Join us for an eye-opening webinar where experts discuss the growing threat of deepfakes, how it can impact your closings, and what we need to know to stay ahead.

We Will Discuss:

- **Impersonation:** Scammers can use deepfake audio and video to impersonate you, manipulating customers with fake emails, calls, and video messages.
- **Fake Listings:** Deepfakes can create entirely fake property listings, tricking buyers into making deposits or payments on non-existent properties.
- **Identity Theft and Financial Fraud:** Scammers can use deepfake technology to create realistic but fraudulent identity documents and intercept payments or redirect funds to their accounts.
- **Manipulating Legal Documents:** Deepfakes can alter or forge legal documents, including contracts and signatures, leading to fraudulent agreements.
- **Real Stories of Deepfakes.** Hear about cases that succeeded and those that were thwarted.
- **Deepfake Detectives:** Tips to safeguard your real estate deals.
- **Unmasking the Fraudster:** How to spot and stop deepfakes.
- **Fraud Busters:** Deepfake tips to help stay safe.
